### What the Commission does and does not do

In the 15 months since commencement, the Commission has received 3786 referrals of suspected corrupt conduct. About 90% of referrals are excluded at the triage stage, because they do not concern a Commonwealth public official or do not raise a corruption issue.

#### What the NACC does

Receive reports about corruption in the Commonwealth public sector

Assess if the report raises a corruption issue

Investigate and report on serious or systemic corruption issues

Support other agencies to prevent and investigate corrupt conduct

#### What the NACC does not do

Mediate disputes between you and others, including public sector agencies

Review decisions made by public sector agencies

Investigate state or territory agencies

Conduct criminal prosecutions or impose penalties

The Commission acknowledges the courage of those individuals who have made reports to us concerning suspected corrupt conduct in the Commonwealth public sector.
